PROFESSIONAL EXPERIENCE

Programming & Math Instructor, Champion School, San Jose, CA   2010 – 2013, 2014 – 2017
- Lead the computer science teaching and engage students to think and solve problems logically.
- Motivate incoming students into independent thinkers who love and excel in math and computers.
- Assess students and work closely with parents to formulate individualized plans to help students achieve concrete goals.

Math Tutor, Study Wizards Tutoring, Mountain View, CA   2013 – 2016
- Proven record of exceptional tutoring service resulting in high student retention.
- Ensure student success by meticulously tracking progress and maintaining availability.
- Transform the way math is perceived by students. Make learning fun and ultimately impart knowledge for students to become autonomous.

IT Helpdesk Technician, Joseph J. Albanese, Santa Clara, CA   Jan 2014 – Apr 2014
- Efficiently set up and deploy PCs within a company of approximately 300 employees.
- Provide prompt resolution of day to day software/hardware issues.
- Oversee printer services and devise a protocol making inventory tracking transparent.

Accounting Clerk, SunLink Corporation, San Rafael, CA   2007 – 2009
- Build tight customer/vendor relation to ensure integrity and transparency of account reconciliation.
- Devise streamlined processes resulting in accurate processing of over 100 orders & invoices daily.
- Under supervision, lead the revamping of warehouse inventory tracking procedures to bring discrepancies and inaccuracies from thousands of dollars to within hundreds.
